

# Summer Internship Opportunity

## Summer Internship Programme, 2010 Locations: Jersey, Guernsey or London

### Overview

The international arm of RBC Wealth Management delivers solutions to over 35,000 high net worth individuals and institutions through a network of 35 offices in the British Isles, Continental Europe, Asia, the Middle East, the Caribbean, Latin America and North America.

RBC Wealth Management is the largest international trust provider in the British Isles and in 2008 was named the best provider of trust services in the UK by Euromoney for the third consecutive year.

At RBC, we believe our people are our main strength and take pride in offering our employees continuous learning and development opportunities. As part of this commitment, we run summer internship programmes each year with the goal of developing highly skilled individuals for future opportunities upon completion of their university degree.

Our 8-10 week structured summer internship programme allows you to gain a full understanding of our wealth management business while based in a single department.

Most of the training will be on-the-job, which we believe to be the most effective and rewarding way to gain the most from your internship.

You will also have an opportunity for classroom-based training, attending in-house business presentations and workshops and completing a group project with fellow summer interns. A prize for the Best Performing Summer Intern will be awarded by senior management towards the end of the summer.

At the end of your internship, you and your reporting manager will complete an assessment form and discuss the internship—how your experience was and where you see room for improvement in the programme. In return, we will provide you with constructive feedback and discuss future career opportunities.

### Requirements

- Degree classification: working towards a minimum 2:1 or higher degree (any degree discipline accepted)
- Hold B average at 'A' levels, ideally including Maths and English.

### Skills

- Strong written and verbal communication skills
- Strong organisational skills and ability to prioritise and act on own initiative
- A high degree of accuracy and attention to detail is essential
- Strong analytical, numeracy and IT skills.
