Dealing

In order to determine the price at which units in the Class may be purchased from or redeemed by the Manager on each subscription day, the scheme property of the Class will be valued on a forward basis at 5pm (Guernsey time) on the business day preceding each subscription day. Such valuation is normally completed by noon on the relevant subscription day and is used to determine the price at which the Manager will issue and redeem units on that day. The subscription day of the Class is Thursday. In addition to the regular subscription day, investors will be able to subscribe for units in the Class on the first business day of each month based on the value of the scheme property as at 5pm on the last business day of the preceding month.
