

Specialist RBC fiduciary site launched

RBC Wealth Management is delighted to announce the launch of a specialist trust and fiduciary website for professional advisors working within the trust and estate planning industry.

Known as *Fiduciary News and Views*, the site contains over 30 videos, articles and fact sheets on a range of trust-related subjects, covering everything from industry trends and structures, to key planning considerations when dealing with clients from particular countries. New material will also be added on a regular basis.

Paul Patterson, Global Head of Trust, explains: “The site provides professional advisors with an opportunity to hear the RBC view and access useful information, some of which they may wish to share with their clients.”

Paul is clear he wants the market to view RBC’s trust professionals as some of the best in the industry. “Our clients not only receive a close, personal service from a dedicated relationship team, they benefit from our global network of almost 600 trust professionals with expertise and experience across a wide range of planning matters and geographies. We are optimistic that this resource will go some way towards demonstrating that.”
